Worcester College for the Blind.

FROM the Report of the above up to the end of July, 1907, we are pleased to see that the College continues to make steady progress. At the close of his second year as Headmaster, the Rev. T. Barnard, M.A., after acknowledging the work of the local Committee and the staff, mentions several developments that have been made during the past year, including the erection of a spacious Gymnasium, and its utilisation during the Winter for a series of fortnightly Lectures and Concerts; the arrangement to enter as many boys as possible annually for the Higher and Lower Certificates* of the Oxford and Cambridge Schools' Examination Board, and the modification of the curriculum to that end; the addition of a class in Gardening; considerable progress in the equipment of the library; also in the provision of Special Educational Works in Braille, in conjunction with the British and Foreign Blind Association; and the founding of a classical prize in memory of the late Headmaster.

The following successes of old students during the year may now be added to the very gratifying list given some time ago: H. A. Roberts, a Gardner's Trust Scholarship of £60 per annum, he having also successfully passed the entrance examination at St. David's College, Lampeter. At Oxford T. G. Osborne passed his preliminary examination for Mus. Bac.; W. E. Lloyd passed Moderations; A. H. Powell took his B.A.; Rev. A. J. Dexter proceeded to M.A. (now appointed Vice-Principal of the Missionary Training College at Dorchester). H. G. Oke has been appointed Organist at Margate; and W. Wolstenholme, Mus. Bac., gained the Mark Hambourg Prize for an Impromptu Polonaise.

The Annual Re-union of Old Students was a great success, the Old Boys' Dinner on the eve of Speech Day being revived this year.

The numbers show a slight decrease, owing to some of the older boys completing their course, but there is every hope that their places will soon be filled. Arrangements have also been made to take a few students who have lost their sight in later life, and one of this class is already in residence with a special object in view.

AN APPEAL.

A Blind Organist and Choirmaster is desirous of securing a set of pedals for the piano, in order to obtain home practice, as, the distance from the church being $3\frac{1}{2}$ miles, he is unable to go there often enough for the purpose, and finds his playing deteriorating in consequence. Any gifts in aid of the above will be thankfully accepted, and the Secretary of this Association will be pleased to receive same on his behalf.

New Music Publications.

WE have pleasure in making the following announcements with regard to new music :

Vol. I. is now ready of Oscar Beringer's Pianoforte Tutor, Practical and Theoretical, with a selection of tunes consisting chiefly of Folk Songs, excerpts from the Classical Masters, and a few examples of good modern Composers for Pianoforte Solo and also Duet. (By kind permission of Bosworth and Co., 5, Prince's Street, Oxford Street, W., and Leipzig). In this work each chapter has its own Finger Exercises and Studies, so that both theory and practice may go hand-in-hand. This will make two volumes in Braille, the price of Vol. I. being 3s. 6d.

By the kindness of Messrs. Beal, Stuttard, & Co., 231, Oxford Street, W., who have generously defrayed the cost of stereotyping, the following works in Braille are now ready :

Beal and Co.'s Improved Modern Tutor for the Pianoforte, by Carl Hemann. (New and Revised Edition). In one volume 2s. 9d.

Melodious and Progressive Studies, for the Development of a Good Technique. By Ellis Riley. Book I., Easy. In Stiff covers. Price 1s. 3d.

The Elves' Caprice (Midnight Dance), composed by Valentine Hemery. Price 6d.

The Tutor is more concise than many of the Tutors now before the public, and while lacking nothing which is essential to the training of a finished artiste, its size makes it possible to produce it in one volume of Braille at a moderate price, thus making it accessible to a wider circle of students.

The Melodious and Progressive Studies are admirably adapted for practice after mastering the Tutor, special instruction being given on the formation of a correct touch, and the varying treatment required by different classes of music in this respect.

OBITUARY.—BARONESS VON KRANICHFELD.

The Blind Baroness von Kranichfeld (née Miriam Gardner, an English-woman), recently deceased, was a remarkably active woman, in spite of her misfortune. While writing a poem, in her fiftieth year, a mist suddenly spread over her eyes and she became totally blind. After attending an English School for the Blind to learn the alphabet and typewriting, she retired to Grindelwald, but as she knew French, German, and Italian as well as English, the Queen of Roumania summoned her to help with the English correspondence of the Royal Blind Institute. The Baroness then mastered Roumanian and took a prominent part in "Carmen Sylva's" work for the sightless. She also learnt Esperanto, in which language she corresponded with a blind Japanese lady. Not only was she an expert writer, but made her own clothes and hats unaided. The Queen of Roumania visited her on her deathbed, and attended the funeral in person.

ACCRINGTON AND DISTRICT SOCIETY.

The Report for the year ending September, 1907, records considerable progress, in that premises have been secured and adapted as a Workshop for the Blind, and this branch of work has been added to the visitation, teaching, and preventive work previously carried on. Boot repairing, Basket and Chair Caning work, String Bag making, Wool work and machine knitting, are the occupations provided up to the present. The initiatory expenses of the above new departure were met during the year, and the period under review closed with a small balance in hand.

"THE CHURCH MESSENGER."

The Annual Report on the above for 1907 shows a distinct improvement in the circulation, and the financial position is satisfactory. It is proposed to continue "Thoughts on some Parables of Jesus," by the Bishop of Stepney, commenced in November; Miss Wordsworth's "Psalms and Festivals," commenced in December; also further extracts from "The East and the West," January saw the commencement of Mr. Archibald Forbes's "Havelock," and the usual monthly features will be continued.

INSTITUTE FOR MASSAGE BY THE BLIND.

The above, with the exception of the nurse marked by a cross, are all Blind operators, and earning a livelihood as the result of their training at the Institute.

VOL. VI.

MARCH, 1908.

No. 3.

Institute for Massage by the Blind.

THE above Institute was founded in 1900 to promote the Training and Employment of Blind persons in the practice of Massage, for which it is proved they are particularly well fitted, and to further Pupils' interests generally.

A special appeal for funds is now being made to secure the fulfilment of several substantial promises, which are conditional upon the Institute obtaining sufficient support by June, 1908, to insure a certain income of £150 a year.

The occupations open to the Blind are very few, and even these are gradually becoming closed against them through the introduction of machinery, etc., so that it became necessary to find new fields of work for the educated and intelligent among them.

It has been proved beyond all doubt that the Blind can attain to the highest standard of efficiency in the practice of Massage, and compete on equal terms with those who see. We are greatly encouraged by the excellent results, both in regard to the work of the operators and the appreciation of those who employ them. At the last Universal Conference of the Blind, held in Edinburgh, a paper was read by our Delegate and demonstrations given daily by a Blind Masseuse. Great satisfaction and admiration at the excellence of her work was expressed by the doctors and ladies who attended.

Thirty-seven persons have gained the highest Certificate obtainable, and most of these are now earning an independent living.

The immediate object of the appeal is to establish a centre in London from whence Blind operators can be sent to patients requiring treatment, to Hospitals, Hydropathic Establishments, Nursing Homes, Infirmarys, and where pupils can be lodged during their training. There is good reason to hope, from the results already obtained, that such an Institute will very soon be self-supporting.

It is the inviolable rule that Masseuses connected with the

- * Institute shall only treat women and children, and Masseurs shall only treat men.

An influential Committee has been formed, and further information may be obtained from the Hon. Secretary, Mrs. MacNicol, care of John Tennant, Esq., 19, The Boltons, S.W., who is the Treasurer, and by whom subscriptions will be gratefully received.

Notes by the Way.

800 BLIND PERSONS AT TEA.

Eight hundred blind persons, from all parts of London, were entertained to tea in the Chelsea Town Hall last Tuesday evening. The function was under the auspices of the National Blind Relief Society, and it was stated that the Income of the Society had risen from £500 to £6,000 per annum.

BRADFORD BLIND INSTITUTION.

The annual meeting of the Bradford Incorporated Institution for the Blind was held at the Institution on the 19th ult., and was very largely attended. Mr. Frederick Priestman, Chairman of the Institution presided. Mr. Miles Priestley (Manager and Secretary) read the forty-seventh annual report, which stated that the year commenced with a handsome donation of £250 from Mr. Joseph Craven (who has been a real friend to the Blind for many years). It was by assistance of this kind that the committee had been able to teach and employ such a large number of blind men and women. In addition to augmenting the wages to the extent of £540, the aged and infirm had received benefits amounting to over £260 per annum. There had been employed during the past year 103 blind men and women, and the increasing turnover was an evidence that the goods made at the Institution had given general satisfaction.

Through the agency of the National Committee, Government contracts had been secured for 6,000 bass brooms and 200 Post-office hampers; but whilst these orders had provided useful employment, the prices obtained were not sufficient to cover expenses. The committee were grateful to the Government departments for such timely assistance, and hoped that some arrangements might be made by which such work might be obtained without loss to institutions. The wages and allowances paid to blind workers amounted to £2,641 6s. 7d., an increase of £263 15s. 3d. The Men's Training Home was proving a useful adjunct to the work of the Institution, owing to the support of the Bradford Board of Guardians, without whom it would have been impossible to carry on the work. The report concluded with a sympathetic reference to the death of Mrs. Evans, who was the last of the founders of the Institution.

The Chairman, in moving the adoption of the report and balance-sheet, gave a few figures which showed an increase in all departments for the past year. The total turnover was £13,109 compared with £12,065, but the gross profits were rather less than they were. Those of the brush department were £891 against £1,058, and the profits of the basket department were £61 less, but the profits of the knitting department were £73 12s. 9d., as against £63. The profits of the shop were £247. The general expenses had been £789, and the net trade profits were £403 as against £470. There was a slight increase in the subscriptions and donations, and when the statement of accounts was all summed up it showed a surplus of income over expenditure, including donations and legacies, of £300 or £400. They had also increased the number of their blind workpeople, and proposals were now before the committee that would increase their work amongst the Blind for the future.

After the meeting Mrs. Charles Fawcett opened a sale of fancy work; and a concert was given in the evening by the choir of the institution.

College of Teachers of the Blind. ✓

THE suggested institution of a College of Teachers of the Blind has been so far carried into effect that the Constitution, Regulations, and Syllabus of Examinations for 1908 have been drafted, and will shortly be issued. The objects for which the College has been established are: (a) To raise the status of Teachers of the Blind by forming them into an organised body, with a recognised position as specialists in the work of education; (b) To give Teachers of the Blind the opportunity of submitting their qualifications to the scrutiny and judgment of an accredited body, for the purpose of examination, so that upon proof of fitness they may receive a certificate of competency; (c) To encourage the training of Teachers of the Blind; (d) To raise the tone and character of the instruction of the Blind generally; (e) To diffuse among the Members, by means of a Library, Lectures, or otherwise, information on all matters connected with the education and the mental, physical, moral and social condition of the Blind, and to encourage interchange of thought and opinion thereon; (f) To receive donations and subscriptions from persons desirous of promoting the objects aforesaid, or any of them, and to hold funds in trust for the same; (g) To promote the welfare of Teachers of the Blind and the interests of education of the Blind generally, and to do all such lawful things as are incidental or conducive to the attainment of any of the above objects. Provided also, that the College shall not grant, or profess to grant, diplomas or titles, other than the title of Member or Officer of the College, and that all Certificates of fitness granted by the College shall, on the face of them, express that they are granted by the College on the report of examiners, or an examiner, by whom the examination was made on behalf of the College, or on the faith of a Certificate or other evidence which the College considers sufficient.

SYLLABUS OF EXAMINATIONS, 1908.

The first Examination will be held in Manchester on Friday and Saturday, 24th and 25th July, before the International Conference to

be held in that City. Teachers intending to sit for the Examination should write to the Hon. Registrar, Mr. W. P. E. Barnes, c/o British and Foreign Blind Association, 206, Great Portland Street, London, W., enclosing one guinea for Examination Fee, and stating in what subjects they wish to be examined.

The following are eligible to sit for Examination: Candidates holding the Elementary Teacher's Certificate, or its equivalent: Candidates who have passed any Examination qualifying as Uncertificated Teachers; Candidates who hold the Higher Certificate of the National Froebel Union; Candidates otherwise recognised as Teachers by the Board of Education; other Candidates whose status as Teachers may satisfy the College.

Examinations will be conducted in the following:

COMPULSORY SUBJECTS: 1. Theoretical knowledge of Braille, Grades I. and II. 2. Practical knowledge of Braille, viz., to read fluently by touch or by sight and to write accurately. 3. Practical knowledge of Arithmetic for the Blind. 4. Practical teaching of the subjects Nos. 1, 2, and 3. 5. One other subject to be selected by the candidate from the following Optional Subjects.

OPTIONAL SUBJECTS: 1. Moon System. 2. Braille Music. 3. Braille Shorthand. 4. Typewriting. 5. The History of the Education of the Blind. 6. Any other which may be approved by the College. 60 per cent. of marks will secure a "Pass," and 85 per cent. "Honours" in any subject.

IF ANY READER HAS A COPY OF THE 1906 REPORT of the British and Foreign Blind Association which they can spare, the Secretary will be very glad to have it.

NEW SACRED SONG.

The popular hymn by the Rev. Sir HENRY W. BAKER, Bart.,

"THERE IS A BLESSED HOME,"

Composed by

ALFRED H. HARRIS, A.R.C.O., Graduate of the Royal Normal College.

Compass of song Bb to F.

A copy of both printed and Braille may be obtained from the Composer,

80, ORTGEN STREET, NOTTINGHAM,

Post free for 2s.

Printed Copy only 1s. 6d.

The Nottingham Express says: "The song is a very good example of a musical setting, which follows somewhat conventional lines. The composer has gained some freedom by changing his rhythms, and the final bold and spirited hymn-like melody in crotchets, with its support of full chords, is a very noble peroration. The song, indeed, is pretty sure to take the attention of all who may hear it."—*July, 1907.*

Notes by the Way.

BRIGHTON BLIND MISSIONARY FUND.

This excellent organisation, carried on by Miss Conolly, of 23, York Road, Hove, has been very active during the past year, principally in the copying of Braille Books for the British and Foreign Blind Association. The Missionary to the Blind has paid 1501 visits during the year; also a very enjoyable day was spent at Victoria Gardens, Burgess Hill, in the summer, the Blind themselves collecting sufficient funds to defray the expenses. Owing to deaths and removals from Brighton of former subscribers, the funds show a decrease of nearly £20, and the Hon. Manager makes an urgent appeal for increased support.

SHEFFIELD INSTITUTION FOR THE BLIND.

The Report for 1907 shows that the Committee have cleared off the debt of nearly £600 in respect of the new West Street building. During the year the Board of Education have recognised the Workshops as a Technical Instruction Institution, and consequently the local Education Authority have paid nearly £250 in grants. Fifty-three persons are now employed at the Manufactory, the Sales there showing an increase of £427, and the Retail Shop an increase of £117. The work of the Home Mission has shown increased activity during the year, the Benevolent Society, Evening Classes, Library, and Adult Sunday School in connection therewith also giving evidence of a steady advance in interest and usefulness.

IF ANY READER HAS A COPY OF THE 1906 REPORT of the British and Foreign Blind Association which they can spare, the Secretary will be very glad to have it.

BRITISH AND FOREIGN BLIND ASSOCIATION.

In Preparation.

It gives us much pleasure to be able to announce that the first work which the "Embossed Scientific Books Fund" will assist in the publication of is already in preparation. The work is entitled "Sound and Music." Its author is Mr. Sedley Taylor, formerly Fellow of Trinity College, Cambridge, and at present Chairman of the Special Board for Music in that University. The book is written in a thoroughly scientific spirit, but without the use of mathematical notation. It ought to prove of great value to the blind student, whether he be studying Music from a professional or merely from a scientific point of view. In the embossed work the diagrams of the original will be reproduced as far as possible.

The work is to be published in Braille by the British and Foreign Blind Association, in two volumes, large size, in Grade II., interpointed, at the price of 5s. for the complete work.

The Epistles of the New Testament (Revised Version). 2 vols.

Notes by the Way.

NOTICE OF REMOVAL.

MISS BLOTT, who has resided for nearly 20 years at 30, St. Charles' Square, North Kensington, W., is removing to more satisfactory surroundings at 27, The Crescent, Barnes, S.W. After 24th June Miss Blott will be pleased to entertain applications for admission to her Home and School for the Blind at that address, where every home comfort is provided for Ladies, Gentlemen, or Children. The latter are given a good education, including Braille, Music, and Languages.

INSTITUTE FOR MASSAGE BY THE BLIND.

Mr. Wm. P. E. Barnes, the Secretary of the Association, has been elected a member of the Committee of the above. Two large rooms have been taken at 71, Bolsover Street, W., comprised in the premises of the Association, where in about a fortnight's time male and female pupils will be given a thorough training in Massage. Enquiries addressed to the Lady Superintendent will receive every attention.

CORRECTION.

In "Notes by the Way" last month, instead of the heading "Brighton Blind Missionary Fund," the full title "Blind Missionary Fund for Brighton, Hove, and the Neighbourhood" should have been given, to avoid confusion between this and other agencies for the relief of the Blind.

HOME FOR THE MIDDLE AND UPPER CLASS BLIND. Either Holiday or Permanent. Braille literature, congenial society, and every comfort.—MRS. DOWDESWELL, The Birches, Churchdown, near Cheltenham. [7]

HOLIDAY HOME FOR THE BLIND, or permanent, with lady who has had much experience; every comfort.—Miss KENT, Garboldisham, Norfolk.

NEW SACRED SONG.

The popular hymn by the Rev. Sir HENRY W. BAKER, Bart.,

"THERE IS A BLESSED HOME,"

Composed by

ALFRED H. HARRIS, A.R.C.O., Graduate of the Royal Normal College.
Compass of song Bb to F.

A copy of both printed and Braille may be obtained from the Composer,

80, ORTZEN STREET, NOTTINGHAM,

Post free for 2s.

Printed Copy only 1s. 6d.

The Nottingham Express says: "The song is a very good example of a musical setting, which follows somewhat conventional lines. The composer has gained some freedom by changing his rhythms, and the final bold and spirited hymn-like melody in crotchets, with its support of full chords, is a very noble peroration. The song, indeed, is pretty sure to take the attention of all who may hear it."—*July, 1907.*

Promoting the Education and Employment of the Blind.

THE Report of the Association for 1907, now in the hands of the printers, records a very gratifying increase in the activities of the Association, especially in the publishing department. Unfortunately, the more books are made and sold, and the more wages are paid to Blind transcribers, the more loss has to be borne by the Association.

Every effort has been made on the part of the Council, by careful and economical management, the provision of up-to-date machinery and appliances, and the establishment of our own Bookbinding and Letterpress printing plant, to minimise this loss, and a great deal has been done in this direction during the past few years, but even yet, as is shown by the adverse balance in the accounts, the support of the benevolent public is called for to a very considerable extent.

The Association has conferred untold blessings on the Blind since its foundation by Dr. Armitage in 1868, both directly in providing employment and remuneration for the writers, and indirectly, but not less tangibly, by the provision of books and appliances. The present productions in all classes of goods represent the accumulated wisdom and ingenuity of many minds, and in some instances are the fruit of protracted and costly experiments.

We know of no better method of permanently helping a most deserving class of persons who are seriously handicapped in the battle of life, and we appeal to our friends to show their appreciation of the efforts being put forth so continuously and persistently. It is the earnest desire of the Council not only to maintain but to extend the operations of the Association, and to this end they invite the co-operation of all who are able to help the work so unostentatiously carried on at Great Portland Street, W.

A copy of the Report will be forwarded on application, and we invite all who are interested to take an early opportunity of seeing for themselves how Braille Books, etc., are produced.

Donations or subscriptions will at all times be gratefully acknowledged.

Notes by the Way.

CONFERENCE OF THE BLIND.

In connection with the International Conference of the Blind to be held in Manchester, it is proposed that on "Conference Sunday" blind clergymen shall occupy the pulpits of a number of churches in Manchester and district. Readers are asked to send the names and addresses of any blind clergymen known to them to the Rev. A. Tansey, Whitley Bridge, Yorkshire.

MISSION TO THE CHINESE BLIND.

We regret to hear that the health of the Rev. W. Hill-Murray continues to give his friends very considerable anxiety. In order to concentrate what remains of his failing strength on his special work for the above Mission, Mr. Hill-Murray has resigned his post in charge of the Chinese colporteurs for the Peking district under the National Bible Society of Scotland, after devoted service in that Society's work extending over 44 years.

ROYAL GLASGOW ASYLUM FOR THE BLIND.

From the 81st Annual Report (1907) we learn that 291 Blind persons were benefited by the Institution in being boarded, clothed, educated, and employed, the total sum distributed directly to the Blind in the form of wages and allowances amounting to £7,177 14s. 1d. The Wood-working Department has been enlarged by the provision of the latest electrically-driven machinery, and a French-polishing department for girls has been added as a result of the increased facilities in this direction. The Inspectors' Report on the Educational section is a most gratifying one. A Swimming Club and Instrumental Band continue to fulfil useful functions, and the Managers contemplate the provision of a Holiday Home and Sanatorium.

BLIND U.S.A. SENATOR.

Mr. Gore, who is blind, is the youngest member of the United States Senate, and represents the youngest State in the Union, Oklahoma. He began his working career as a boy of eleven, when he became a page in the Senate of his native State, Mississippi. Soon after that he lost his sight.

BLIND FLOWER GIRLS' EXHIBITION.

A floral exhibition in connection with the Blind and Crippled Girls' Industrial Homes, London, was held on June 15th, in the St. James's Hall, Lichfield. The opening ceremony was performed by the Deputy Mayoress (Miss Audrey Jones), the Mayor (Councillor Coleridge Roberts) being in the chair. The hall was artistically decorated by a great variety of artificially-made flowers, the work of the afflicted girls. A number of the girls also gave a demonstration during the afternoon in the art of making the beautiful imitations, and their dexterity provoked much admiration. The exhibition and sale lasted for a week.

HOME FOR THE MIDDLE AND UPPER CLASS BLIND. Either Holiday or Permanent. Braille literature, congenial society, and every comfort.—MRS. DOWDESWELL, The Birches, Churchdown, near Cheltenham. [7]

WILL EXCHANGE or SELL BRAILLE BOOKS and Magazines. 20 vols. of the Bible (Moon Type) 6d. each.—C. HALL, 2, Newham, Cambridge.

MISS BLOTT, who has for the last 20 years successfully conducted a very superior Home for the Blind at 30, St. Charles-square, North Kensington, wishes to make it known that it has been found advisable to move into better surroundings. She has therefore taken a suitable place known as 27, The Crescent, Barnes, S.W., which is situated on Barnes Green, and joins the Common, thus affording pleasant walks immediately on leaving the house, and within easy reach of Richmond Park and Kew Gardens. Two Blind Boarders can be received, and have every care and attention; an invalid or delicate child not objected to, as a trained nurse is always kept in the house. Good garden, with a straight walk 20 yards long.

Annual Prize Festival at the Royal Normal College.

THE annual prize festival was held in the College grounds on Thursday afternoon, July 23rd, when there was a large attendance of subscribers and visitors. After an inspection of the various classes and gymnasium, an organ recital was given by Mr. James Crowley, F.R.C.O., after which a concert was given in the Garden Hall.

The prize distribution took place in the grounds, the speakers occupying a balcony near the rink. The chair was taken by Sir William Mather, who, in the course of an excellent speech, said he felt greatly honoured in being allowed to preside over the annual meeting of the College. It was a place of distinction, because it was associated with one of the most remarkable movements of the age. In the athletic sports they had just witnessed, he had been reminded of the same sort of games he saw at the Stadium yesterday. In the typewriting and shorthand department he dictated a few sentences which were taken down with the utmost accuracy, and he was taking away the result with him to show that the students were capable of entering any office in the land, and could take their places beside those who were in full possession of their sight; in the concert to which they had just listened the results of that instruction were seen in perfect melody, time and harmony.

He regretted that the College was burdened with a deficit of £4,000, and trusted they would find an inspiration there that day, which would induce them to do what they could to remove this stumbling block. To raise this £4,000 it was necessary only to obtain twenty gifts of £200 each, and he would be pleased to be one of the twenty.

The prizes were then distributed by Miss Mather.

At the conclusion of the ceremony Lord Selby proposed a vote of thanks to Sir Wm. Mather for presiding, and to Miss Mather for presenting the prizes.

Rev. W. B. Taylor seconded, and the resolution was carried with acclamation.

Notes by the Way.

GIRL'S GIFT TO THE QUEEN.

On the occasion of the recent Royal visit to Bristol Her Majesty the Queen graciously consented to receive, through the Duchess of Beaufort, a shawl knitted by a totally blind girl working at 65a, Park Street, in connection with the School of Industry for the Blind, Queen's Road, Clifton, Bristol. Her Majesty also purchased some goods knitted by the Blind, and commanded the Duchess to send a letter of thanks to the knitter of the shawl.

HOME FOR BLIND WOMEN AT BRADFORD.

A new home for blind women was opened yesterday afternoon in Spring Bank, Bradford, by Mrs. Frederick Priestman. Mrs. Dunn presided, and said they had schools for blind children, a workshop and a training home, and now they hoped to make a very happy home for some of their women.

MIDLAND INSTITUTION FOR THE BLIND, NOTTINGHAM.

In their sixty-fourth annual Report the committee again present a satisfactory record of work and progress. The present number of pupils and outworkers is 101. Of these 59 are pupils receiving technical and industrial training, and 42 are workpeople and adult learners. This is an increase of six as compared with last year. The trade of the Institution showed an increase, amounting to £7,481 16s. 2d. The subscription list exhibited a further marked improvement, the total being £681 5s. 1d., the largest yet recorded.

A GOOD EXAMPLE FROM CARDIFF.

The committee of the Cardiff Flower Show have kindly invited all the Blind in Cardiff to attend the show to hear the band, and each blind person will be allowed a guide.

GARDEN PARTY AT MANCHESTER.

The one event of the year so far as the inmates of Henshaw's Blind Asylum are concerned is their annual garden party, when work is stopped for the day, and everything possible is done to give the inmates a thoroughly enjoyable time. The scene in the garden, with the band playing the latest tunes, the children racing and indulging in games of all kinds on the lawn, girls parading the paths arm-in-arm, and the men standing or sitting about in groups smoking their pipes in peace, has seldom presented such an animated appearance as on the occasion of this year's festival. A highly-appreciated concert in the evening, and a special supper were a fitting wind-up to the little round of pleasures. Though there were not many of the general public present a number of the members of the Board of Management and some of the ladies who visit the Asylum to read to the inmates, spent the afternoon and evening with the blind folk, helping to make their holiday a day to live in the memory of these afflicted people.

DUNDEE BLIND.

The Dundee and Lochee Mission to the Outdoor Blind has just completed another very successful year's work, and an extremely satisfactory report was submitted to the annual meeting, which was held on June 16th, Mr. David Air presiding. From the report it appears that the income has been well maintained, and has been more than sufficient to meet the expenses. There are at present on the roll 165, made up of 81 males and 84 females, against 169 last year, consisting of 79 males and 90 females. In moving the adoption of the Report, the Rev. Miller Graham threw out the suggestion that something might be done in the way of organising a holiday during the summer for some of these blind people. The adoption of the Report was seconded by the Rev. David Thom, who said the Mission was well worthy of the support of the community. The Report was adopted. Mr. John Galt, the superintendent, stated that the Mission had to stand or fall by its own income. Without a balance they could not begin the year's work, as they could not overdraw.

BRITISH AND FOREIGN BLIND ASSOCIATION.

In Preparation.

It gives us much pleasure to be able to announce that the first work which the "Embossed Scientific Books Fund" will assist in the publication of is already in preparation. The work is entitled "Sound and Music." Its author is Mr. Sedley Taylor, formerly Fellow of Trinity College, Cambridge, and at present Chairman of the Special Board for Music in that University. The book is written in a thoroughly scientific spirit, but without the use of mathematical notation. It ought to prove of great value to the blind student, whether studying Music from a professional or merely from a scientific point of view. In the embossed work the diagrams of the original will be produced as far as possible.

The work is to be published in Braille by the British and Foreign Blind Association, in two volumes, large size, in Grade II., interpointed, at the price of 5s. for the complete work.

The Epistles of the New Testament (Revised Version). 2 vols.

The Recent Conference on the Blind. ✓

THE Rev. Herbert Marston, of Belgrave Chapel, Belgrave Square, S.W., has supplied to the Press the following impressions on the Conference:—

“If I single out for special praise and grateful admiration the paper on ‘The Blind in Japan,’ read by Mr. Yoshimoto, I shall be doing no injustice to others; for the general level of papers and discussions was high. This paper was peculiarly statesmanlike and interesting. It was composed in admirable English and read with clearness and animation. Japan threatens to take the lead in the matters of blind education also. It behoves the West to exert itself against the honourable rivalry of the most progressive of the peoples of the East. There are some things to disappoint in the reports of work among the Blind both in France and in America. On the whole, however, these countries display that same astonishing advance in educating and training the Blind which has signalled our own during the last thirty years. Rather more time might, with propriety and advantage, have been given to the question of higher education. The conviction which I have formed after much experience as a teacher and worker was deepened and reinforced by the deliberations at Manchester. That conviction is, that at the root of all real and growing improvement of the Blind lies the higher education of blind boys and girls. Three topics engaged the Conference with special interest. That most widely urgent to the blind community was that of Pensions. The debate on this topic revealed a good deal of divergent opinion. The general feeling seemed to be that the pension system is good; that it may be largely extended; but that it should be managed by private charity. Merely being deprived of sight was held to be no sufficient qualification for the receipt of a pension. The debate on ‘The Psychology of Blindness’ was remarkable for the high level of the speaking and the sustained interest of the audience. The paper was written by Mr. Ritchie, the able headmaster of the school at Henshaw’s Blind Asylum. Mr.

Dixon, of Oxford, contributed a striking speech, and all wished that much longer time had been allotted to the subject by those who drew up the programme.

"The National League of the Blind was much in evidence at the Conference. Its spokesmen gave some anxiety to those in charge of the proceedings. This league professes to voice the feelings of the really poorest and most afflicted of the Blind, and on that account I listened to those who represented it with sympathy and, I hope, with candour. The spirit of the league is socialistic, and its views were insisted on with a preoccupied and invincible stringency characteristic of that school."

✓

Clever Blind Musicians in the Ranks of British Composers.

AT a concert given recently at the Queen's Hall, London, a scena for soprano and orchestra from Tennyson's "Maud," composed by Miss Emily Lucas, of the Royal Normal College and Academy of Music for the Blind, met with a very enthusiastic reception, the composer being twice called to the platform. Miss Lucas has passed both the licentiate examination of the Royal Academy and the fellowship examination of the Royal College of Organists. She holds a good organ appointment, and has been very successful in training her choir.

Another great blind organist and composer is William Wolstenholme, who was also blind from his birth, and was educated at the Worcester College for the Higher Education of the Blind. He played Mendelssohn's G minor piano concerto for the Worcester Philharmonic Society in 1885, when he was twenty years old, and two years later took his Mus. Bac. degree at Oxford. He is famous as an organ recitalist, and is also a brilliant improviser. His published compositions include a cantata, "Lord Ullin's Daughter," and many organ pieces of great merit, the most popular being the "Question and Answer," which have found their way into the programme of almost every organist in the world.

One of our most famous blind organists in past times was Charles John Stanley, a contemporary of Handel. He was a brilliant player and a composer of sterling merit, some of his organ pieces, notably the Voluntary in D minor and the Concerto in G, with a fugue upon a "bell" subject, having survived to our own day. After Handel lost his sight he made inquiries about a suitable organist to play at his oratorio performances. Someone recommended Stanley, upon which Handel quoted the New Testament saying about the blind leading the blind and both falling into the ditch.

BRITISH AND FOREIGN BLIND ASSOCIATION.

In Preparation.

It gives us much pleasure to be able to announce that the first work which the "Embossed Scientific Books Fund" will assist in the publication of is already in preparation. The work is entitled "Sound and Music." Its author is Mr. Sedley Taylor, formerly Fellow of Trinity College, Cambridge, and at present Chairman of the Special Board for Music in that University. The book is written in a thoroughly scientific spirit, but without the use of mathematical notation. It ought to prove of great value to the blind student, whether studying Music from a professional or merely from a scientific point of view. In the embossed work the diagrams of the original will be produced as far as possible.

The work is to be published in Braille by the British and Foreign Blind Association, in two volumes, large size, in Grade II., interpointed, at the price of 5s. for the complete work.

The Epistles of the New Testament (Revised Version). 2 vols.

VOL. VI.

NOVEMBER, 1908.

NO. 11.

WE have great pleasure in announcing that Mr. Henry Stainsby, of the General Institution for the Blind, Birmingham, has been offered, and has accepted the post of General Superintendent and Secretary to the British and Foreign Blind Association.

From the local Press we learn that : " Mr. Stainsby has completed twenty-eight years' service at the Edgbaston Institution, for the last fifteen years of which he has been secretary. At the completion of his twenty-five years' service the Committee presented him with an address, in which they emphasised the high esteem in which they held his services. As an indication of the success which has attended Mr. Stainsby's tenure of the post of Secretary, it may be stated that during that period the Kindergarten School at Harborne for accommodating forty blind children between five and ten years of age has been built, and workshops capable of giving employment to forty-five workmen in the mat department have just been completed, whilst many improvements have been carried out at the main Institution. A prize system of embossed shorthand for the Blind emanated from the Birmingham Institution, and in the creation of this Mr. Stainsby took an active part and himself invented an automatic machine for writing (or rather embossing) the system at a high speed. He has also invented many other useful machines and appliances for the Blind, but without any profit to himself.

" When Mr. Stainsby became Secretary in the year 1893 the number of blind people employed in the Workshops was eighteen, to-day it is 106, the turnover was then £2,366, last year it reached the figure of £12,036; then the wages paid to blind workers during the year were £396 (with augmentatation), while last year they amounted to £3,772. Including blind teachers and other blind officers the salaries and wages now paid fall only a few pounds short of £5,000 per annum.

" The chief reason that has induced Mr. Stainsby (who is acknowledged to be one of the first experts in the country in work among the Blind) to accept his new berth, is that he hopes to find a larger sphere for his labours as Secretary to an international society than is possible in a local institution. His loss will be severely felt, not only by the blind people in Birmingham and neighbourhood, but also by the

Committee of the Institution and all those interested in his work, and he leaves Birmingham with every good wish for his success in his new sphere of labour."

Mr. Stainsby will not be new to the British and Foreign Blind Association as for some years he has been on its Executive Council. He has also held the position of Chairman of the Technical and Book Committee, and in that capacity has shewn his intimate knowledge of every detail of the work among the Blind. He was also Chairman of the New Rules Committee, formed to revise and codify Braille in the three grades.

In his new appointment it is hoped that his well-known powers of organisation will enable him to bring this Association to its proper position as the pioneer Society in connection with the Education and Employment of the Blind.

“Progress.”

A MONTHLY MAGAZINE FOR THE BLIND, IN BRAILLE TYPE.

THE newly appointed Editor of *Progress* is most anxious that it should be placed in the hands of all blind persons who may wish to possess a copy. Useful and interesting articles, which the Editor believes will be appreciated by the Blind, will appear in it, and these will be opened to correspondence on all matters pertaining to the welfare of the Blind. As many of the Blind are unable to afford the annual subscription (6s., post free), it is hoped that those interested in the cause of the Blind may feel disposed to subscribe this small sum to provide pleasure and profit to some worthy blind person. The Editor will be pleased to recommend suitable cases to those who may be desirous of so assisting the Blind. The magazine is published by the British and Foreign Blind Association, 206, Great Portland Street, London, W.

International Conference on the Blind.

THE Report of the Second Triennial International Conference on the Blind, held at Manchester from July 27th to August 1st, has just been issued, and can be obtained from Mr. W. H. Illingworth, Superintendent, Henshaw's Blind Asylum, Old Trafford, Manchester; price 2s. 6d. each. It contains a mass of useful and interesting matter that must be seen to be fully appreciated, and we strongly recommend all who are interested in the cause of the Blind to obtain copies at once. The papers contributed were as follows:—

- “The Housing of the Blind,” by Miss Heywood, Founder and Hon. Sec. of the Manchester and Salford Blind Aid Society.
- “Technical Education and Employment of the Blind in the United States,” by Mr. E. Green, Superintendent of the Missouri School for the Blind, St. Louis, U.S.A.
- “Commercial Training of the Blind in Canada,” by Dr. Fraser, Superintendent of the Halifax School for the Blind, Nova Scotia.
- “Pensions for the Blind,” by Miss E. Massey.
- “Recreations for the Blind,” by Mr. W. Littlewood, Principal of the Waver-tree School for the Blind, Liverpool.

- "The Blind of France," by Miss Jaqueline Chevenin, of the Valentine Haüy Institution, Paris.
- "The Past, Present, and Future of the Blind of Japan," by Mr. Yoshimoto, of Tokio, Japan.
- "The Psychology of Blindness and Care of Blind Infants," by Mr. J. M. Ritchie, Head Master, Henshaw's Blind Asylum, Manchester.
- "Music for the Blind," by Mr. H. E. Platt, Teacher of Music, Institution for the Blind, Birmingham. (On account of its great length, an abridgement only of this most valuable paper appears in the Conference Report, but a full copy in letterpress may be obtained from the Secretary, Institution for the Blind, Birmingham; price 6d., post free.)

Papers relating to subjects dealt with at the last Conference were also submitted. The object of these papers was to show what improvements had been made since the last Conference. The papers were as follows:—

- (a) "Primary Education of the Blind," by Mr. H. Stainsby.
- (b) "Secondary Education of the Blind," by Mr. W. H. Illingworth.
- (c) "Employment of the Blind," by Mr. J. H. Hewitt.
- (d) "The Care and Treatment of Blind Defectives," by Mr. Henry J. Wilson.
- (e) "Boards of Guardians and their Relation to the Blind," by Mr. W. H. Tait.
- (f) "The Outdoor Blind of Scotland," by Mr. J. Frew Bryden.

The papers were of an interesting and useful character, most being the collaborated views of known experts, not of individuals. Apart from the actual Conference, the members and delegates expressed themselves as having acquired much valuable information from intercourse with each other at times when the Conference was not in session. The interest taken in the cause of the Blind by the sighted delegates was most striking, and one was impressed with the evidence of great activity, not only in this country but in practically every part of the world. This is the more gratifying seeing that little more than a century ago the Blind were considered helpless and burdensome, and were without any form of education or employment.

A most important discussion was that on the Prevention of Blindness. It was rightly felt that the best way to deal with blindness was to *prevent* it where possible. The most fruitful source of Preventable Blindness is Ophthalmia Neonatorum.
